Designed by Chicago architects The Streeter is a sleek and dynamic counterpoint to the traditional architecture throughout Streeterville. Its fluid design, green glass and subtle curves give the building a contemporary style and radiance. Beyond aesthetics, there are many thoughtful details that set The Streeter apart from other residential buildings. From a private drive-thru entrance to the energy-efficient glass and rooftops, to the charactistic openness and accessibility, everything about The Streeter was carefully designed to promote convenience and effortless living. The Streeter offers floorplans perfect for every lifestyle with unique views of Chicago's skyline and Lake Michigan from large floor-to-ceiling windows. Natural sunlight will greet you daily.
